COVER LETTER

Dear Hiring Manager,

I'm currently pursuing a **BSc (Hons.) in Software Engineering** from the **University of Plymouth (UK)** at **NSBM Green University Town, Sri Lanka**, and I am in my final year. I am actively seeking an **internship opportunity as a Full-Stack Developer** to gain hands-on experience and apply my academic knowledge to real-world software projects. Throughout my studies, I have developed a strong foundation in both **front-end and back-end development**. My projects have allowed me to work with **ReactJS** for building responsive user interfaces and **Node.js, Express, and MongoDB** for developing scalable server-side applications. I have also gained experience in **RESTful API development, database management, and cloud integration** using services like **Cloudinary**.

Most recently, I worked on an AI-powered image generation platform, integrating **OpenAI's API** with **ReactJS** for the front-end and **Node.js/Express** for the back-end, further sharpening my full-stack capabilities. I am eager to contribute to your team, bring my problem-solving abilities, and collaborate effectively on meaningful projects. I am confident that my **technical skills, attention to detail, and passion for learning** will make me a valuable addition to your organization. Thank you for considering my application. I would be thrilled to discuss how my skills and experiences align with the needs of your team and contribute to your ongoing projects.

Yours sincerely,
Sandaruwan Wadiyage
